Finland 360°

The Most Beautiful Places and Sights

Photo Journey Through Finland

Finland 360° – The most beautiful places and sights, presents our beautiful homeland with pictures and captions. Finland is presented by regions. The journey begins from Åland in the south and ends up north to Lapland. The book shows the change from spring to summer and from the colors of the autumn to the early winter grayness and finally to the glory of the snow. The reader will be able to locate the places on the book from the region maps.

The book's attractions are the most beautiful Finland, cultural and natural sights. There is also a glimpse of the Finnish lifestyle, and everyday life. Captions on the pictures are in English.

In the end of the book you will find the same captions translated to other languages (Finnish, Swedish, German, French, Russian, Spanish, Japanese and Chinese).

The book is a beautiful gift to take abroad, be given to partners and a souvenir for tourists.

Or just for your personal enjoyment.

CONTACT

Karttakeskus is the leading Finnish GIS company as well as map publisher, retailer and distributor of both Finnish and international map products and map data. We supply traditional printed maps, travel guides, school maps, non-fiction books, map applications and other digital products. We use our up-to-date map data to produce various custom-made map products. We also are the publisher of the Finnish Nautical Charts (produced by the Finnish Transport Agency) and Finnish Aeronautical Charts (produced by Finavia). We have staff of approximately 100 experts. Karttakeskus is wholly owned by Affecto Plc, publicly listed in Helsinki, Finland.
