Wilderness Huts for Hikers

Finland's unique network of wilderness huts is open to everyone. Anyone can enjoy Finnish nature and wilderness areas. Exploring unmarked trails is also very popular. This book serves as a guide to more than 400 wilderness huts in Lapland and other parts of Finland. As well as providing precise coordinates and details of the hut equipment, the book also conveys the atmosphere of the Finnish wilderness. Hikers' journals and excerpts from wilderness hut guest books offer the reader fascinating insight into life in the Finnish outdoors. Includes itineraries, stories, and facts about nature. The authors have personally visited every single hut in the book. The book comes with a map on which all of the wilderness huts are marked.

Highly acclaimed by critics in Finland!

Wilderness Huts for Hikers
Retkeilijän autiotuvat – Tiedot, taustat, tunnelmat

- Authors Jouni Laaksonen, Joel Ahola

Karttakeskus is the leading Finnish GIS company as well as map publisher, retailer and distributor of both Finnish and international map products and map data. We supply traditional printed maps, travel guides, school maps, non-fiction books, map applications and other digital products. We use our up-to-date map data to produce various custom-made map products. We also are the publisher of the Finnish Nautical Charts (produced by the Finnish Transport Agency) and Finnish Aeronautical Charts (produced by Finavia). We have staff of approximately 100 experts. Karttakeskus is wholly owned by Affecto Plc, publicly listed in Helsinki, Finland.
